[51] In January 2011, electronic book sales in Amazon had exceeded their paperback sales. [52] In the U.S. global market, sales of paperback books are still much larger than either hard-cover or e-books; the American Publishing Association estimated that e-books accounted for 8.5% of sales in mid-2010, compared to 3% in the previous year. [53] At the end of the first quarter of 2012, electronic book sales in the United States first exceeded cover book sales. [4] Until the end of 2013, the use of an e-reader was not allowed the use of e-readers on planes at all times if it is in plane mode, which means all radios shut down, and Europe followed this quide next month. [55] In 2014, The New York Times predicted that by 2018 e-books will constitute more than 50% of total consumer publishing income in the United States and Great Britain. Looking for a worthy use of this resource, he created his first electronic document by writing the declaration of independence of the United States on a computer in Plain Hart planned to create documents that use formatless text to make them as easy as possible to download and view the devices. ^ "J.K. Rowling rejects electronic books for Potter." Subsequently, Apple changes to the use of Adobe Acrobat. [74] The popular format for publishing electronic books changes text without format to HTML. The final device was planned to include audio recordings, a magnifying glass, a calculator and an electric light for night reading. [13] Your device was never put into production, but a prototype is maintained at the National Museum of Science and Technology in a Corué.
