Acknowledgements Provides a statement recognizing individuals, aside from the authors, that have contributed to the scientific work being reported. Detailed literature review, results should be avoided in this section. Acquired heart disease. Book: Cardenosa G. 2016 Journal Citation Reports. Adjustments such as changes to settings must be disclosed in the figure legend. Begin with a limited background information section followed by a discussion of the investigation's results, limitations and future implications and outcomes that correspond to previously published research or how it may develop into future research. Video/DVD presentations are also accepted. Non-research contributions are not suitable. Patient identification MUST be removed. Organization of manuscript sections The following information must appear: Title Author's names and affiliations: highest level of contribution to the paper appearing as first author. Permissions/Copyright Written permission must be obtained for material that has been published in copyrighted material; this includes tables, figures, and quoted text that exceeds 150 words. Labels or arrows may be used to point out areas of interest and should be detailed in the legend. The main body of the text in this section mainly encompasses numerical data. Tables and illustrations Each table should be typed on a separate page and should have a legend at the top indicating the information contained and should supplement the text. Further suggestions might be found on the article's talk page.vte Retrieved from " The Journal of Mental Health and Addiction Nursing Instructions to Authors Original Research The word count includes the body of manuscript, references, notes and captions. All submitted material remains the property of the journal and will be returned to the author; however, the publisher and the JMHAN reserve the right to reprint all or portions of the article and to post all or part of the article online. Present author's affiliation addresses below the names and indicate each affiliation with a superscript number immediately after the author's name. Breast cancer statistics. Thomson Reuters. References ^ "The International Nurses Society on Addictions". Conflicts of Interest/ Competing Interests All authors of must disclose any and all conflicts of interest they may have with the publication of the manuscript or any institution or product that is mentioned in the manuscript and/or is important to the outcome of the study presented. Retrieved 2010-06-10. The word count excludes the abbreviation list and acknowledgements. Web of Science (Social Sciences ed.). Methods For investigations involving human subjects, declaration that informed consent approval was obtained as well as statement of institutional or university ethical review board approval should be indicated in a separate paragraph. Post-traumatic myositis ossificans: sonographic findings. Manuscripts that do not comply with these rules will not be accepted for publication. Author Checklist: Does not exceed 4500 words (without consent from Editor-in-Chief) Title Page: Author(s) full name and credentials Author(s) contact information Author affiliation address Word count Grant support Abstract: Background and Objective briefly described Materials and Methods briefly described Results are identified Under 500 words Introduction: The purpose is clearly stated Background information on the research is provided Definitions pertinent to the understanding of the article are provided Support the merits of the case with a detailed literature review Introduce the research to the reader Methods: Subsections recommended (i.e. research design, patient population, recruitment, etc.) Confirmation of statistical method/findings No results or discussion in this section Consent for human research discussed (if applicable) Ethical review discussed Funding: If applicable full disclosure of funding sources Results: Tables/data clearly labelled and presented Confirmation of statistical method/findings Discussion: Justify the uniqueness of the research Compare and contrast the research to the known literature Discuss background information Discuss results Discuss limitations Discuss future implications/research Discuss the impact on the ultrasound/medical field Tables, figures and/or graphs are well labelled Conclusion: Relate to objectives identified in the introduction Summarize the findings and the application of the practice of mental health and addiction nursing Less than 1 paragraph Acknowledgements: Research related contributors are acknowledged Material and Methods: Describe the methodology applied in the investigation. Plagiarism Plagiarism is defined as the presentation of work of another in such a way as to give the reader reason to think it is the author's own work. Self-plagiarism: refers to the practice of an author using portions of their previous writings on the same topic in another of their publications, without specifically citing it formally in quotes. Scholars can acquire novel ideas from others during the process of reviewing grant applications and manuscripts. Institutional Ethics review board approval and informed consent All prospective and retrospective human studies must have appropriate institutional ethics review board. Word Count The number of words should be indicated. Accessed November 13, 2012. References Provide the original references that provided essential data for the investigation. General Instructions: References References should be numbered consecutively in the text by superscript numerals. Conclusion: Brief statement fulfilling the hypothesis. Word Limits Abstract: 500 Total: 4,500 Grant Support The must be a declaration of any financial support for the research, listing company or organization name and the author's affiliation. Journal article: Abate M, Salini V, Rimondi E, et al. The JMHAN uses a slightly modified version of the Vancouver style for references. You can help Wikipedia by expanding it.See tips for writing articles about academic journals. New York: McGraw-Hill; 1994:845-39. Research articles report results of an original research project, based on clinical findings, examination technique development, improving strategies and/or training in the health profession. Addict. Adjustments of brightness, contrast, or color balance are allowed if they are applied to the whole image and do not obscure or eliminate any information present in the original image. When there are more than 4 authors, shorten to 3 and add "et al." Journal titles should be abbreviated as in PubMed. All authors must confirm that neither the manuscript nor any part of it was written or published or is under consideration for publication elsewhere. Do not embed the images in the text/Word document. This article about a nursing journal is a stub. If any photographs are to be submitted, please use the maximum resolution of the camera (3.2 megapixel minimum). JMHAN reserves the right to edit manuscripts as required to publish in the journal. Wholesale appropriation of such material constitutes misconduct. Reporting results and/or discussion is inadmissible in this section. Breast Imaging Companion, 3rd edition. Illustrations should clarify and complement the text. Manuscripts submitted to the journal must be original, have not been previously published and will be verified for plagiarism. ^ "Journal of Addictions Nursing". This section may be divided into subsections and include research design, patient population/recruitment, materials, sampling, diagnostic methodology and analysis, and statistical analysis. Authors are recommended to consult with an individual with statistical expertise for analysis. Digital image editing ethics No particular feature within an image may be introduced, moved, enhanced, obscured, or removed. Any paper submitted to the JMHAN will be checked for originality to confirm that it has not been plagiarized from other sources. Results: State the principal results of the investigation. Chapter in a book: Galloway AC, Colvin SB, Grossi EA, et al. Incorrect authorship: Excluding authors, wrongly presenting the same material as original in more than one publication, inclusion of authors who have not made a definite contribution to the work published; or submission of articles without the concurrence of all authors. Each table should be clearly labeled with the title and figure number. Illustrations may be sent via e-mail as a TIFF or JPEG file. All manuscripts must be double-spaced with full-text line and page numbering. It is the official journal of the International Nurses Society on Addictions.[1] The journal is edited by Christine Vourakis (California State University, Sacramento, California, US).[2] It has been published since 1989[3] and according to Journal Citation Reports it has a 2016 impact factor of 0.400.[4] The journal is published quarterly. Abstract The abstract is a summary limited to 500 words and should state the investigation the following four subheadings: Background and Objective: Brief statement of the background and purpose for the investigation. Authors must clearly indicate that approval for publication has been received in cases of institutional ownership. Publication of the content as an abstract during the proceedings of meetings is not considered prior publication and can be submitted for publication. This statement should include whether or not the research conforms to the outlined principles in the Declaration of Helsinki. Funding If applicable, details of all funding sources including full agency name(s) and grant numbers should be included as a separate subsection. Site tables, figures and/or graphs to illustrate the findings. Discussion Should explore the significance and impact of the results in relation to the research question and hypothesis. Please use the maximum resolution on your PACS system (usually 640-480). All abbreviations should be spelled out at the first mention in the text and abbreviations should be listed in a key. Nurs.IndexingCODEN · JSTOR (alt) · LCCN (alt)MIAR · NLM (alt) · ScopusISSN1088-4602 (print)1548-7148 (web)OCLC no.34618968Links Journal homepage The Journal of Addictions Nursing is a peer-reviewed nursing journal which publishes original articles on current research, issues, practices and innovations in the field of addictions, with focus on addictions nursing. Compliance with these rules must be stated in the text, including waiver of consent by the board, if applicable.
